

Weekly Report #1

Benchmarking Stream Clustering Algorithms in River

Contributor	Nguyen Van A	Reporting period	01 Jun 2026 – 07 Jun 2026
Mentors	Dr. B, Dr. C	Phase	Phase 1 — Benchmark foundation
Repository	github.com/user/repo	Report date	August 27, 2026

1. Executive Summary

Objective — High-level goal and main focus for this week.

Status — DONE On Track

Self-assessment — Approximate completion percentage and self-evaluation.

Progress tracker

Table 1: Weekly plan versus reality, week 1.

Weekly plan item	Phase ref.	Status	Completion
Planned task item 1	P1.1	DONE	100%
Planned task item 2	P1.2	IN PROGRESS	50%
Planned task item 3	P1.2	PLANNED	0%

Takeaway. Brief summary of progress and critical path impact.

Overall: Week 1/18 — on schedule.

2. Completed Tasks

C1. Completed task title(Phase ref.)

Detailed description of work done, methodologies, and outcomes. *Evidence:* `commit xxxxxxxx`.

In progress

- IN PROGRESS Task title in progress (50%) — Current state and expected completion date.

Time log

Research: 0h · Engineering: 0h · Writing: 0h ⇒ Total: 0h.

3. Results & Visualization

3.1 Experimental Results

4. Issues

I1 — Issue title / short description

Type: Technical / Conceptual / Resource.

Impact: **MEDIUM** — Potential delay or impact on next milestone.

Handling: Steps taken or proposed solution to investigate/resolve the issue.

Mentor support: No / Yes — Specific decision or input requested from advisor.

Table 2: Issue summary.

ID	Short description	Type	Impact	Mentor input?
I1	Issue short description	Technical	MEDIUM	No

Takeaway. Action item summary for the issues listed above.

5. Next Week's Plan

Table 3: Plan for week 2.

#	Task	Definition of done (verifiable)	Phase
N1	Planned task 1	Concrete, verifiable deliverable	P1.1
N2	Planned task 2	Concrete, verifiable deliverable	P1.2

Takeaway. Key focus and critical path items for the upcoming week.

6. References / Links

Code produced this week

Ref	Description	Link
PR #1	Feature implementation	pull/1

Literature and documentation
